**\$3<sup>00</sup>** per month<sup>†</sup>

### Important Information

\* Customer pays \$50 upfront hardware cost at the time of activation and receives a \$50 per fleet tracker credit on their account within first 3-4 billing cycles. Applicable to MGS800 devices only. \*\* 5MB data plan is recommended for standard reporting frequency of location every 2 min and vehicle status (ignition, speed, idle, etc) every 6 min. Additional plans are available for more frequent reporting. † Includes standard covert install. Advanced installation may incur additional fees.

Consult with our expert for your specific business needs. Pricing does not include taxes and other applicable fees.
