

The Ultimate Telematics Bundle

For smart fleets, drivers and teams

Track vehicle location. Optimize activity in the field. Manage engine health. Automate driver coaching. **All from one platform.**

We want you to have the best fleet management experience and this is why we combined the best products into one Ultimate Bundle for you. It provides you with our latest Fleet Tracker with LTE connectivity, a video solution for your daily driver safety and coaching, and your choice of Task Tracker or Inspect app. Take a look at the benefits!

The Ultimate Bundle
\$47 per vehicle per month

Fleet Tracker MGS800 with ECM on LTE network

Vision by Fleet Complete dashcam included

Choice of Task Tracker App or Inspect App

More than just dots on the map

An advanced GPS fleet tracking solution with LTE that provides visibility and insight over your assets and workforce in near real-time.

Features and benefits:

- Captures time-stamped vehicle location and improves fleet insight
- Monitors and analyzes driver behaviour in fleet performance dashboards
- Helps evaluate business inefficiencies and identify opportunity to lower fleet costs

Proactive vehicle health management

The Fleet Tracker MGS800 device connects to vehicle's Engine Control Module (ECM) and captures accurate engine data to help streamline timely maintenance, minimize downtime associated with breakdowns and lower service expenses.

Engine data information and alerts:

- Engine fault codes and temperature/oil/coolant status
- Brake pedal position and application pressure, parking brake switch
- True odometer, RPM, VIN and more

Automate driver coaching with video event tracking

Suited for business fleets of any size, this reliable video event recording solution includes near real-time analytics and in-cab voice assistance to improve your fleet safety and driver coaching.

Features and benefits:

- Only records once an infraction is detected
- Sounds in-cab live voice notifications of detected violations
- Provides in-app trip summary dashboard for driver
- Provides video footage of infractions in cloud-based manager app

In-cab live coaching alerts:

- Lane drifting
- Speeding
- Tailgating
- Rolling STOPS
- Harsh braking
- Hard cornering

Fleet performance dashboard:

- Distance traveled
- Rapid Acceleration Events
- Harsh Braking Events
- Harsh Events
- Idling Time
- Speeding Duration
- Time Outside Working Hours
- Behavior Scorecard
- Behavior Dashboard

Choice of:

Task dispatch and status tracking

Task Tracker is a mobile workforce tracking and dispatching solution that helps improve business efficiency, meet changing priorities, and enhance customer service.

Features and benefits:

- Enables dispatchers to send activities to workers' mobile
- Provides near real-time status updates once workers Accept, Reject or Complete the task
- Stores historic data and worker time cards for audits

Greater efficiency during vehicle inspections

Inspect by Fleet Complete is a mobile application that allows drivers to complete their Driver Vehicle Inspection Reports (DVIR) to help standardize vehicle check-ups and reporting.

Features and benefits:

- Allows drivers to log any minor and major defect on their phone
- Captures driver sign-off and saves the report for audits
- Transfers all defects in the Mechanic's Portal to streamline service scheduling
